Subject: HT-09 sample cooler - Can you resample?

[Ex. 6 - Personal Privacy]

I am sending this email (and left a voice message on your cell as well), that unfortunately the cooler containing all TTHM samples (Fort Meade lab) was not logged in on Friday due to inclement weather.

Two questions:

1. Would be able to resample the event for us? (We are simultaneously looking into the potential cost impact for resampling.)
2. When are you performing Stage 2 compliance samples for February 2014? (Would you be able to share Stage 2 results for Location 4 if partial analysis of last week's samples are performed)

Thanks for letting us know ASAP, as we need to let the lab know whether to proceed with partial analysis.
